DOCTOR JOSEPH L. DRISCOLL PRESIDENT

The college years for the members of the class of 1967 have contained many periods of extraordinary challenge. This is true, in large measure, due to the fact that your attendance at SMTI coincided with many of the major events and crises which are an inherent part of the transition the Institution has been and still moving through. To your class, as well as the few classes preceding and following it, this has meant confrontation with difficulties and inconveniences not usually a part of the academic world's regular pattern. The manner in which the members of the class of 1967 accepted these unusual obstacles and faced and overcame them should forever be to all of you a prideful memory.

As is the case in all human endeavor, when individuals or groups are challenged by extraordinary difficulties and meet those challenges successfully, they are the better and the stronger for the experience. The many contributions the members of the class of 1967 have made to the successful development of SMTI will long be remembered by me personally and by all of my colleagues on the faculty.

In extending this message of congratulations to you on the successful completion of your program of studies, I want you to know that I have great confidence in your future, a confidence based on how splendidly you met your responsibilities during the past four years of campus life.

Mr. Paul Rudolph

## DEDICATION

Since moving on to its new campus, SMTI has been catapulted into national prominence. The attention has centered upon the unique design for the SMTI complex at North Dartmouth; a design that generates energy, excitement, and new educational horizons. The entire credit for the design of this educational complex, which heralds a new day for public higher education in Southeastern Massachusetts, rests with Mr. Paul Rudolph.

It seems fitting, therefore, that this first edition of the SCRIM-SHAW be dedicated to Mr. Paul Rudolph, architect and designer of Southeastern Massachusetts Technological Institute. He has set us a standard of excellence; may we always remain true to this ideal.

Professor Louis S. J. Simeone, "Louie" to friends and a generation of students, is in the midst of an illustrious career at S.M.T.I. Joining the faculty of Bradford Durfee Textile School in 1946, he was the founder of the independent Mathematics Department. He received a Bachelor of Science Degree in Mathematics from Northeastern University in 1945, and a Master of Arts Degree in Mathematics from Boston University in 1951.

Through the years, his kindly patience and his delightfully sly wit have become legendary. Able to make the most abstract mathematical ideas not only meaningful but also interesting to the students, he has such a sure grasp of his subject matter he can state difficult concepts simply and directly—the surest stamp of a great teacher.

Professor Simeone is in the forefront of extra-curricular activity at S.M.T.I. He was the founder of the Cosmopolitan Club for foreign students, he was one of the founders and a long-time adviser of the Mathematics Club. He is always available to individual students for advice and direction. He was among the very first to support the consolidation of Bradford Durfee College of Technology and New Bedford Institute of Technology and has been an active supporter of the development of Southeastern Massachusetts Technological Institute.

Intellectually gifted, a charming gentleman, a sure adviser, and a great teacher, Professor Louis S. J. Simeone is indeed a "man for all seasons."

# *Student Organizations*

## **STUDENT COUNCIL**

The Student Council is the governing body for all student organizations.

## **BUSINESS MANAGEMENT CLUB**

The Business Management Club was founded in May of 1961. Its membership is comprised solely of Junior and Senior majors in Management who are interested in broadening their business background.

## **CIRCLE K CLUB**

This organization is sponsored by Kiwanis International and is a service organization similar to Kiwanis and other service clubs.

## **MUSICAL ORGANIZATIONS**

Membership in the following musical organizations is open to students of SMTI: Band, orchestra (small and large ensembles), chorus and small vocal ensembles.

Any student who wishes to study voice or a musical instrument should consult with the musical director.

## **THE MARKETING SOCIETY**

This organization attempts to acquaint students with unique problems and considerations in certain distributive areas of the business world. To do this, the officers and members employ such media as field trips, movies, luncheon speakers, and various company representatives. Membership is open to all Business Administration students.

## **YEARBOOK**

A Yearbook is published by and for all students at SMTI, and it provides for the most part a pictorial record of all classes and of all principal events of the school year.

## **BIOLOGY CLUB**

The organization seeks to foster the advancement of professional awareness among students in the life sciences and to encourage the discussion and exchange of ideas relating to the numerous specialties which comprise the biological sciences. Lecturers, discussions, motion pictures, field trips and similar media of communication are utilized to stimulate student interest and to encourage discussion in the informal setting provided.

## **INTERACT CLUB**

The Interact Club, whose membership comprises both American and foreign students, seeks to provide opportunity for young men and women to work together in a world fellowship dedicated to services and international understanding; it also seeks to provide opportunities for gaining increased knowledge and understanding of community, national and world affairs.

## **THE AMERICAN CHEMICAL SOCIETY**

The society seeks to encourage the advancement of chemistry and chemical education. The activities of the SMTI chapter include field trips and lectures pertaining to chemistry and allied fields.

#### AMERICAN ASSOCIATION OF TEXTILE CHEMISTS AND COLORISTS

The SMTI chapter is a student unit of the national organization whose membership is open to students who are preparing for a career in Textile Chemistry.

#### THE INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS

The objectives of the I. E. E. E. Student Branch are to provide an organization through which the technical development and the ideas of the engineering profession, outside the classroom, may be shared with students and to provide the student with the opportunity to contribute toward the advancement of professionalism in engineering.

#### THE MECHANICAL ENGINEERING SOCIETY

The Society attempts to establish and foster bonds of friendship and common interest among students in the same and related fields.

#### AMERICAN ASSOCIATION OF TEXTILE TECHNOLOGISTS

The purpose of this organization is to bring about a more intimate relationship between the textile industry and undergraduates majoring in the field of textiles or related areas.

#### GEOLOGY CLUB

The Club holds meetings once monthly during the academic year. The year's program varies and consists of such activities as lectures and organized field trips as well as discussional business meetings.

#### MATHEMATICS CLUB

The Mathematics Club was formed in 1952, to further student interest in this subject field. The Club holds meetings once a month at which time either a student or a faculty member presents a talk on some mathematical topic.

#### NEWMAN CLUB

The Newman Club is an organization of Catholic college students dedicated to the wider application of the teachings of the Catholic Faith to their private and social lives.

#### STUDENT PUBLICATIONS

*Torch*. This is the student newspaper managed and published solely by student effort. In addition to publishing news events relative to the college and campus, the Torch makes available to the student body a channel for expression and general information.

*Talker*. This is a weekly publication concerned for the most part with editorial comment pertaining not only to college life but to happenings of significance taking place within the community—that is, local, state, national and inter-national.

#### ATHLETICS

The administration and faculty approve and encourage a full program on intercollegiate and intramural athletics.

Varsity teams include baseball, tennis, soccer, fencing, golf, and track. SMTI is an active member of the National Association of Intercollegiate Athletics and of the Southern New England Coastal Conference. Future plans include varsity teams in football, wrestling, and other sport activities.

#### DRAMA CLUB

The Dramatic Society was officially formed in 1967 as an organization to further the cultural attitudes of the students at S.M.T.I. Membership is open to all students.

SENIOR CLASS OFFICERS

President, Henry L. Thiboutat, Secretary, Terry Couto, Vice-President, Raymond T. Noguiera.

To these people we extend our appreciation for making the scholastic year of 1967 at SMTI one which will be long remembered.

## WORDS OF APPRECIATION AND THANKS

by Glenn D. Lincoln Preston

We find it almost impossible to express our thanks for the wonderful experience that we have had this first academic year at the North Dartmouth campus.

The time that we have spent studying here has been of great value to us because we have gained knowledge and experience that to us is priceless. We thank you all for being such a great part of it.

We have learned about your way of life: the manner in which you think, act, and persevere. We have learned to adjust to our new environment, which we would not have been able to do but for the hospitality, friendship, and courtesy of all of you with whom we spent most of our time.

To our teachers, our advisors, our faculty friends, and all of our fellow students, especially our classmates, sincere thanks for this memorable year.

Sincerely,

*Glenn D. Lincoln Preston*

#### GENTLE THURSDAY—MAY 4.

GENTLE THURSDAY is an affirmation of the idea that there is nothing wrong and a great deal that is right with a little fun. Frivolous fun? Irresponsible and fun? A breakdown of the customary barriers that separate us all? An attempt to destructure? . . . YEAH!

We want to create a time for relaxation, for an expression of our common humanity, for gentle peeling off of layers and layers of those thick plastic shells in which we all seem to exist . . . self-centered, introverted, structured, and dehumanized; those shells that separate faculty from students, students from students, department from department, ourselves from ourselves—

We affirm the power of that forbidden word, LOVE, with all its dissembling effects, its radical thrust into the heart of all that binds us, its stripping power that leaves us open and unprotected, unable to resist involvement with other human beings, even strangers (but there will be no stranger on GENTLE THURSDAY.)

Move then, on GENTLE THURSDAY, "as the spirit moves you . . ." dress as you like, colorfully and casually, or in suits and ties.

Bring your family, friends and pets to school.

Bring blankets and picnic lunches, with maybe some extra sandwiches for the Art Majors.

Your professors may hold classes out of doors—perhaps forgoing their subject matter in favor of discussing Love and Gentleness. How they have seemed to slip away from us. (Does the very thought of talking about love embarrass you? does it tighten your insides? All the more reason to do it!)

Bring musical instruments; clarinets, flutes, guitars, violins, kazoos—it's all right if you really can't play well.

Bring your "selves" and your smiles and leave your tensions at home for one day.

There will be kites and color and lollipops and music. On GENTLE THURSDAY it will be alright to talk to the Chem. Dept.

And if GENTLE THURSDAY is a success, maybe we'll have another one again sometime. And then maybe someday we will have GENTLE THURSDAY every day.

And then the revolution will be here!

# MASTERS

OF

# VESSELS!

And all others interested, are hereby publicly cautioned against shipping the following officers of the "LANCASTER," of New Bedford, as it was through their ignorance, inefficiency and utter incompetency that the "Lancaster" was "SKUNKED!"

## WILLIAM HENRY ROYCE, SECOND OFFICER,

Was 3d mate and boatsteerer of the Bark "Black Eagle" for the season of '55, during which time he distinguished himself as an excellent DO-NOTHING, whilst as 2d officer of the "Lancaster" he won for himself the reputation of an extensive KNOW-NOTHING! Too ignorant to catch a bow-head, and afraid as death of a right whale. Would make a good deck walloper.

Before shipping any of the above worthies, Masters of Vessels are requested to ascertain their true characters.

(Signed by the entire Crew.)

# adVER aISe menTS

Products are of no value unless the consumer is made aware of their existence. This is the purpose of advertising: to convincingly present a commodity to the public. As the business cycle revolves, advertising fulfills its role as the spokesman of industry. Advertisers deal in the abstract—words and images—to represent the concrete—goods and services—realizing that man is controlled through his thoughts and that it is to this realm that they must appeal.

#### EDITOR'S ACKNOWLEDGEMENTS

The editorship of the 1967 Scrimshaw was one of the most difficult assignments I have ever undertaken. The cause for this difficulty was due to a lack of cooperation of the student body to take an active interest in this year's yearbook. The lack of faculty assistance also made the task much harder. To the people that did take an active part in making this yearbook a reality, and who helped me so much whenever I needed help, a sincere thank-you.

Thanks to;

JOHN GAGNON, layout editor, who so ably handled layouts and many other things that needed attention. The time he devoted to the Scrimshaw was far beyond what could be expected of most people.

WILL ST. ONGE and DICK PLOUFFE, photographers, for their first time and effort taking and developing photos. The darkroom served as a second home for these two during the past year. Again, my sincere thanks.

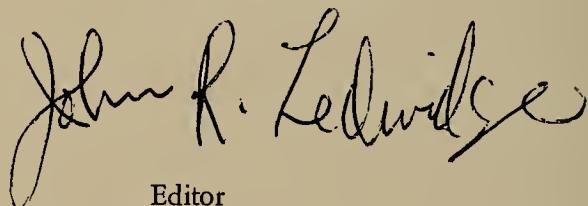

Celeste Baptiste, one of the most faithful and time giving people on the Scrimshaw staff. Celeste took upon herself the task of laying out the faculty index and the senior layout. Working many long and tiring hours, she is to be congratulated for an excellent job.

Many thanks to Dean Donald C. Howard and Dean Mary Louise Walsh for their undying assistance in helping in the publication of this book.

Acknowledgement is also made to two members of the SMTI English Department: Doctor Marie Ahearn and Doctor Walter Cass for their encouragement concerning our literary strife.

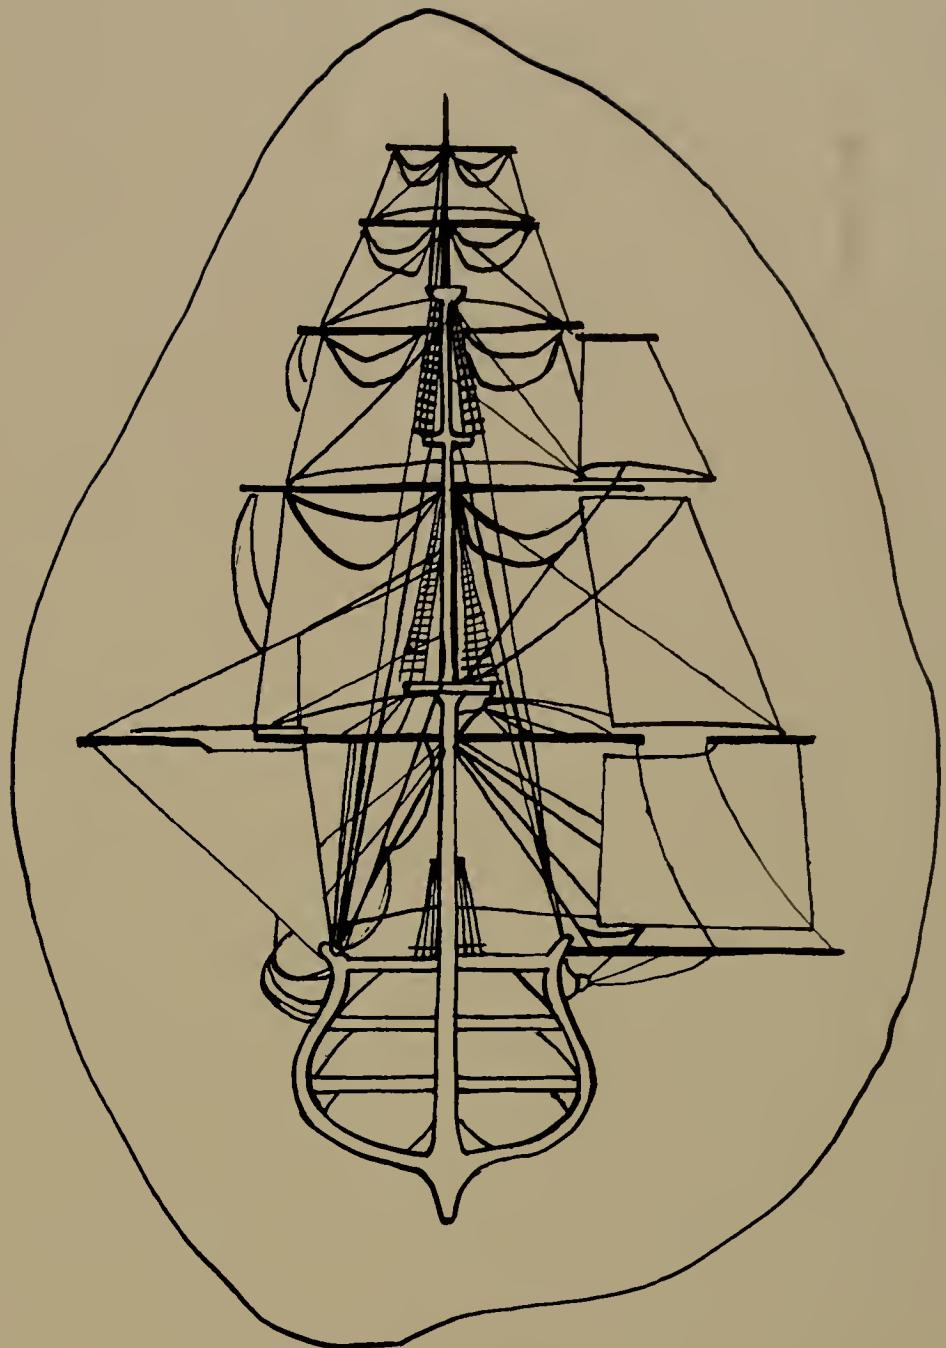

It was a great sacrifice on the part of these four people in assisting me in this almost impossible task. I am privileged to have worked with these "good friends"—the experience has been very rewarding.
